

Australian Underground Mine Ventilation Conference 2027

Conference Announcement and Call for Volunteers

Dear Colleagues,

The planning committee is pleased to announce that planning is underway for the **Australian Underground Mine Ventilation Conference 2027**, to be held in **Brisbane on 22-25 November 2027**.

The conference will be organised and run by the Mine Ventilation Society of Australia (MVSA) and UNSW, and will be hosted by the University of Queensland in Brisbane.

To help make this event a success, we are seeking enthusiastic volunteers from across the mining, consulting, research, regulatory, supplier, and academic sectors to participate in a range of conference organising committees.

This conference aims to bring together professionals from across the underground mining industry to share knowledge, discuss emerging challenges, showcase innovation, and strengthen the mine ventilation community throughout Australia and beyond.

We are currently seeking volunteers to assist in areas including:

1. Operational committee
2. Technical committee
3. Workshops committee
4. Field tour committee
5. Sponsorship and industry engagement committee

Committee members will have the opportunity to:

1. Contribute to the direction and success of Australia's premier underground mine ventilation conference
2. Collaborate with industry leaders and peers
3. Expand their professional network
4. Support the development of the next generation of ventilation professionals
5. Help promote innovation, safety, and excellence across the industry

Participation is voluntary, and committee activities will generally be conducted through periodic online meetings, with increased involvement as the conference approaches.

If you are interested in contributing your time and expertise, please reply to this email with:

1. Your name and organisation
2. Current role
3. Areas of interest or preferred committee(s)

We welcome volunteers from all levels of experience and encourage participation from mining companies, consultants, suppliers, researchers, educators, regulators, and students.

Together, we can create a conference that delivers lasting value to the underground mining community.

We look forward to hearing from you.

Kind regards,

Conference Chair
